About me:

Detail-oriented WordPress developer is skilled in the creation of search engine optimized e-commerce websites, C2C & B2C marketplaces. Highly trained, 7+ years experience with big teams and as a freelancer with remote companies and projects. Mobile optimization and user experience are in first place in my works. During the process, I worked with different media and web development agencies and apart from these processes, I also provided WordPress development services for companies in different industries from different countries as a freelance. Although the majority of these services are remote, in some cases I have had the chance to work directly from the office by traveling to countries such as Serbia, Turkey, Montenegro, Ukraine, Albania, Macedonia, etc. For more info please read my Resume carefully and for my portfolio check my website (valiyev.me).
